MTL objectives include activites and competencies that...

- 1. Are meaningful for you and align your learning goals with your team.
- 2. Develop systems thinking skills to help you see how several things fit together, & understand causes hard to see without data & modeling resources.
- 3. Make VA data, initiatives, and standards transparent to you.
- 4. Empower you to realize ongoing improvements in team quality of care & work life.

Our goal is to partner with you to understand your Team's local context, challenges, and strengths.

<u>Modeling to Learn is a 12- session program designed to help Teams upgrade local decisions</u>

Since MTL co-planning session:

- Team goal move towards EBP-focused approach to specialty MH service for PTSD.
- Challenge
 - how to get Veterans the treatment they are wanting.
